

Dr. P.K. Grant, Chief Cardiologist, Chairman & Managing Trustee, Ruby Hall Clinic.

invasive radiation therapy

- **Hybrid Cath lab:** A comprehensive platform for complex and interventional cardiovascular procedures by integrating imaging and surgical capabilities
- **GE MINITrace Cyclotron:** Pune's first Cyclotron that helps produce Fluorodeoxyglucose (FDG), a vital radiotracer for PET-CT scans in cancer detection.
- **Siemens Somatom Force CT Scanner:** South Asia's first and the world's fastest CT Scanner
- **3T Philips Ingenia Evolution MRI:** Offering exceptional imaging clarity and speed, revolutionising diagnostics
- **The daVinci Surgical Robot:** To provide unmatched surgical precision and dexterity
- **Rezum -Water Vapour Therapy System:** A minimally invasive, cutting-edge treatment for benign prostatic hyperplasia (BPH)

• **Fujifilm CAD EYE AI System:** A groundbreaking technology designed to enhance the early detection of gastrointestinal (GI) cancers

• **Modulith SLX F-2 Connect by Karl Storz:** Non-invasive, precise kidney stone treatment using advanced shockwave technology

• **Einstein Vision 2.0:** A state-of-the-art system to revolutionise 3D laparoscopic procedures

• **Automated Laboratory with Shoot System:** Robotic replacement of human operators in the preparation and transport of specimens

• **Varian's Halcyon:** A cutting-edge radiation therapy system known for delivering precise radiation treatment with reduced treatment time

• **NexCAR19 Therapy:** India's first approved CAR-T cell therapy for the treatment of aggressive haematological cancers

• **Varian's Truebeam:** An innovative and versatile radiotherapy system offering high-precision treatments for a broad range of cancers

Dr. Simon Grant, Trustee, Ruby Hall Clinic says, "We are committed to providing top-tier healthcare

through cutting-edge technology to all individuals, regardless of economic status. With a strong focus on charity and equality, the clinic ensures exceptional treatment for every patient."

"We take pride in pioneering medical innovations, ensuring our patients receive top-tier care with warmth and compassion," adds Dr. P.K. Grant, Chief Cardiologist, Chairman & Managing Trustee, Ruby Hall Clinic.

In the past three years, Ruby Hall Clinic has invested over Rs. 100 crore in treatments for economically disadvantaged patients. The hospital is dedicated to offering free or concessional care, particularly for underprivileged paediatric patients. Notably, it provides free CyberKnife radiosurgery and paediatric cardiac surgery, ensuring that vulnerable children receive the critical care they need. Through these initiatives, Ruby Hall Clinic continues to make a significant impact on the lives of those in need.
