

NOTHING

THE GOVERNMENT IS PUSHING AUTOMAKERS TO OFFER DISCOUNTS ON NEW VEHICLES IN EXCHANGE FOR SCRAPPING OLD ONES IN LINE WITH ITS SCRAPPING POLICY. INFRASTRUCTURE WILL HAVE TO SCALE TO MAKE THE DREAM OF A CIRCULAR ECONOMY A REALITY

WASTE NOT

Entities running scrapyards can reuse many items like metal and rubber from discarded cars

► All diesel vehicles that are more than 10 years old and petrol vehicles that are 15 years old are to be scrapped

► Scrapping includes the entire process from receipt to safe disposal of non-reusable parts

► Some automakers have announced that they will build their own scrapyards as part of the policy
