

Adani Defence & Aerospace unveiled its indigenously manufactured Drishti 10 (Starliner) Unmanned Aerial Vehicle (UAV) for the Indian Navy at Adani Aerospace Park, Hyderabad.

UAVs, AMMUNITION AND MISSILES: ADANI DEFENCE & AEROSPACE'S BOLD MOVE IN INDIA'S DEFENCE SECTOR

In the pursuit of prosperity, a nation's security stands as a cornerstone, safeguarding its people and property. The role of defence becomes important in maintaining peace and security within the borders while also serving as a bulwark against any kind of turbulence, both external and internal.

As the world's fifth-largest economy, India's journey towards self-sufficiency is not just an economic ambition but a strategic move to uphold national sovereignty and security through indigenous strength. The recent paradigm shift towards indigenization reflects India's commitment to 'Aatmanirbhar Bharat' or a self-reliant India, aiming for technological advancement and innovation in the defence and aerospace sector.

In line with this vision of 'Aatmanirbhar Bharat', Adani Defence and Aerospace has been building state-of-the-art defence capabilities ensuring Swa:Raksha ('Swa' in Sanskrit means 'Self' and 'Raksha' means 'Defence'). Its objective is to stay ahead of the times and remain prepared for any contingency.

(L-R): Ashish Rajvanshi, CEO, Adani Defence & Aerospace; Karan Adani, MD, APSEZ; Chief of Army Staff, Gen Manoj Pandey AVSM VSM SM ADC; Hon'ble Chief Minister of Uttar Pradesh, Shri Yogi Adityanath and Jeet Adani, Director, AEL, during the inauguration of the Adani Ammunition Complex in Kanpur.

Under the visionary leadership of Adani Group's Chairman, Mr. Gautam Adani, who wants to leave a legacy by making a humble contribution to Indian Armed Forces and to see a nation rising above dependence, a Bharat claiming its rightful place in forefront of quality, innovation, and technology in the

global landscape.

In a monumental stride for India's defence sector, Adani Defence and Aerospace recently unveiled two cutting-edge facilities – the Adani Ammunition Complex and Adani Missiles Complex: pioneering facilities which are first of their kind in India's private sector, that will
