

CHEMICALS & PETROCHEMICALS

The way petrol and chemicals are being traded in Gujarat, it's fast moving towards becoming the hub of this industry. Gujarat holds a share of 41 per cent of India's total chemical and petrochemical exports, accounting for 5 per cent of India's total and 27 per cent of Gujarat's total exports, respectively.

Sectoral Overview

- World's Largest Grassroot Oil Refinery at Jamnagar.
- 75% share in India's Dyes & Intermediates manufacturing.
- 40% of India's total refining capacity by 4 refining complexes in Gujarat (> 100 Million Metric Tons Per Annum (MMTPA)).
- 1 MMTPA cracking capacity.
- 3 LNG regasification terminals with upcoming Floating Storage and Regasification Unit.
- 100 Million Liters per Day (MLD) desalination plant in Dahej.
- Presence of clusters and downstream

companies of derivatives, plastics and polymers manufacturing, dyes and pigments.

Growth Drivers

- Highest share in India's Chemical & Petrochemical exports.
- India's 1st operational Petroleum, Chemi-

cals & Petrochemicals Investment Region (PCPIR) in Gujarat.

- India's 1st Chemical Port in Dahej.
- Presence of Deep-Sea Pipeline

Investment Opportunities

- Speciality Chemicals
