

PORTS & MARITIME

Over the last two decades, Gujarat has positioned itself as a pioneer and a role model state for port development. The current focus in Gujarat is on the development of port cities and greenfield ports. Anticipating a growth in maritime traffic, Gujarat has initiated various projects and implemented several developmental schemes. The objective is to elevate the capacity of Gujarat's ports to 2 trillion metric tons by the year 2047.

Sectoral Overview

- Gujarat Owns India's longest coastline (1,600 kms), providing strategic advantage for trade and commerce.
- 40% of India's port cargo handled by 1 major port and 48 non-major ports connected to all major port-based trade routes.

Growth Drivers

- Presence of world's largest ship recycling facility at Alang, Bhavnagar.

- Dedicated Maritime Center of Excellence - Gujarat Maritime University (GMU), Gandhinagar.
- International Finance Services Centre Authority (IFSCA) has issued a frame work for ship leasing facility at GIFT City.

Investment Opportunities

- Port / Jetty Development
- Port Mechanization and Mordernization
- Smart Industrial Port Cities
- Logistics & Warehousing
