

# CHIPPING IN

A stylized illustration on a dark blue background. At the top, a green banner with a white border contains the title 'CHIPPING IN' in large, white, bold, sans-serif capital letters. Below the banner, a robotic arm with orange segments holds a square orange circuit board with a green microchip in the center. In the foreground, a stylized man with dark hair, wearing a dark blue suit, white shirt, and green tie, is shown from the chest up. He is holding a magnifying glass with a white handle and frame. The lens of the magnifying glass is focused on a small green microchip. The background features faint, thin white and orange lines that suggest a circuit board or a digital network.
