Numbers in bold indicate ranks of respective parameters; three-year growth is compounded annual growth rate (CAGR); values in each parameter are rounded off up to two decimals; NPA: Non-performing assets; CASA: Current account and savings account; CAR: Capital adequacy ratio; ROCE: Return on capital employed; NIM: Net interest margin; LCR: Liquidity coverage ratio. Indian Overseas Bank and UCO Bank are the new entrants from Group II to Group I due to an increase in asset size. New entrants to Group I that were excluded earlier due to mergers are Canara Bank, Indian Bank, Punjab National Bank, and Union Bank of India; since these banks have completed only three financial years post merger, two-year CAGR ratios have been computed; for an explanation of parameters and how the total score was arrived at, see 'Picking the Winners', page 106
