## STATE OF THE ECONOMY

However, as North Block gets busy with the preparation of the Union Budget for 2025-26, officials are taking a hard look at the economy and the various factors at play. A slowdown in economic growth in FY25 had been factored in, with GDP growth estimated at 7% in the current fiscal, down from 8.2% in FY24.

A good monsoon seems to have revived rural sentiment, but urban demand seems to be slowing down as inflation remains sticky. "The festive season paints a mixed picture for consumption. Demand is holding up

**"We need to factor in economic  
flows between countries  
across goods and services,  
including services provided by  
e-commerce and digital firms"**
