PURIFIER
BIG+QUIET**

₹66,900

This air purifier not only does a good job of cleaning the air; it also adapts to your needs

QUIET & INTELLIGENT

The Dyson Purifier Big+Quiet takes home air purification to the next level with advanced HEPA and carbon filters designed to capture pollutants, allergens, and even the most stubborn odours. Known for its powerful yet quiet performance, it covers larger spaces, making it ideal for expansive living areas. Dyson's innovative Air Multiplier technology ensures purified air circulates smoothly, filling the room without disturbing the peace. Paired with smart controls via the Dyson Link app, this purifier doesn't just clean your air; it learns and adapts to your environment for optimal air quality 24x7.

Tech TODAY

BREATHE EASY

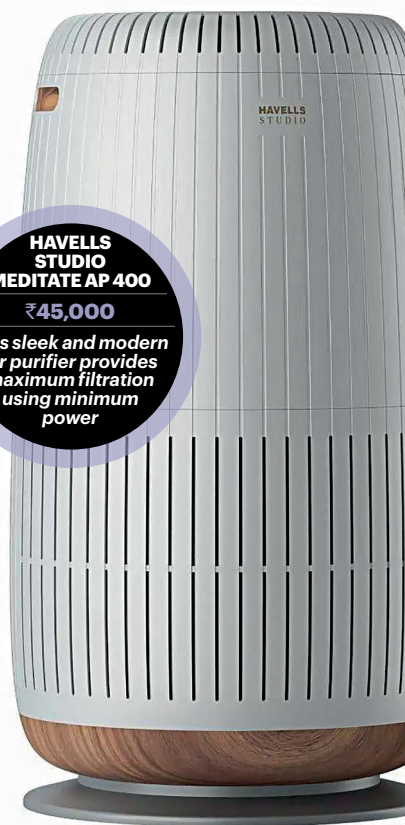

Whether you're battling allergies, looking to remove pollutants, or simply want to breathe easier, the right air purifier can make a difference

BY PRANAV DIXIT

Simply Efficient

Built with urban homes in mind, this sleek air purifier combines style with top-tier filtration. It uses a combination of HEPA and activated carbon filters, effectively removing airborne particles, allergens, and harmful volatile organic compounds. Its USP is its energy efficiency; it consumes minimal power while delivering maximum filtration, making it perfect for households that are conscious of both health and energy bills. It also integrates a wireless charger, that charges mobile phones as well the AQI remote wirelessly. With intuitive touch controls and a real-time air quality indicator, this air purifier is both user-friendly and effective.
