

CGH EARTH'S WAYANAD WILD

Located in the rainforests of the Western Ghats in Lakkidi, North Kerala, one of eight hotspots of biodiversity in the world, CGH Earth's Wayanad Wild is where you get to meet nature in all its untamed glory. Your experience starts with the 3.5 km off-road ride to reach the hotel where rooms peek out of treetops and the infinity pool tips over into the foliage. While the hotel can provide jeep safaris to explore the Western Ghats, the natural beauty is best explored on foot with a naturalist. While bird watchers will be thrilled to spot rare migratory birds, for the more adventurous, there is bamboo rafting and zip lining.
