

70+ Years of Empowering India

with

Japanese Excellence

Digital Identity Program (Aadhaar)

Transforming lives of 1.3 billion Indians, fostering progress in education, health, business & overall welfare.

AI for Finance

Simplifying financial planning through an AI-powered platform, transforming the National Pension System.

AgriTech

Enabling growth in agriculture, through a one-stop centralized government scheme portal for agri-investors and farmers.

Safe & Smart City

Enhancing liveability, security, and governance.

Contactless Boarding (DigiYatra)

Redefining air travel experiences, enabling face-as-boarding-pass for 5M+ passengers and improving crowd and queue management.

Smart Logistics

Driving excellence in logistics, with 100% (75M+) of India's EXIM containers tracked.

Submarine Cable Networks

Bridging remote islands of Andaman & Nicobar and Lakshadweep to the mainland & boosting connectivity for 5M+ islanders.

Smart Transportation

Streamlining urban mobility solutions, providing efficient and safe transit for 10,500 buses and 670 BRT stations.
