

Lending an Experienced Hand to Enterprise and the Socially Vulnerable

The visionary, Dr. Anil Kumar, CEO and Chairman of Ankita Group of Companies, has a chequered entrepreneurial growth story from humble beginnings to emerge as a power to reckon with in the international market with its versatile portfolio in diverse sectors, including Agro, Healthcare, and Grocery items.

Dr. Anil Kumar
CEO and Chairman of Ankita Group

Empowered with enviable accomplishments in academics and an indomitable spirit to succeed, Mr Anil Kumar, has proven that anything can be achieved if you are focused, ready to work hard, and are ethical. Success is bound to follow. His impressive educational qualifications of MBA, Master of Arts degree, and the distinguished title of Doctor of Philosophy in Management from KEISIE INTERNATIONAL UNIVERSITY in South Korea and an Honorary Doctoral award from the Confederation of International Accreditation Commission (CIAC), acknowledge the humble man's brilliance and incredible body of work. From a middle-class family to becoming the CEO and Chairman of the Ankita Group of Companies, the journey has been eventful

and more surprises are in the offing.

The destiny of Dr Anil Kumar took a turn when he embarked on his entrepreneurial journey in 1998-1999, with marginal financial backing to launch Healthmax Pharma, venturing into the healthcare sector. But the decisive and a turning point in his life came during a business tour to African countries for exploring business opportunities where he bagged an initial export order of \$5000 for groceries, marking audacious moment and no turning back ever. Today, the company has grown extensively with presence across more than fifteen Asian, African, Eastern European, and CIS countries.

The 2000's was the beginning of an era of start-ups with many players trying their luck at succeeding in the ventures

launched by them. As the vertical of start-ups was still raw and loose ends the initial pick-up was slow. However, the momentum gathered as a more start-up friendly eco-system was coming-up bringing with it many unique concepts and talent in the world of enterprise believed to have the power to transform the socio-economic landscape of the nation. Investment and a level playing field were still a pain-point, which few enterprises could overcome and one such company which made it big was Ankita Overseas led by Dr. Anil Kumar, an inspiring business magnate. Today, the company's name is synonymous with high benchmarks in quality and incomparable services. At the core of Ankita's export business lie the welfare of farmers, where under Dr Kumar's guidance, a channel for marketing their produce became a reality. Today, the company purchases a variety of high-quality agricultural produce, including foxnuts, lychee, and

rice, directly from farmers at a fair price and then sells them on the global market. Today, these goods are available in about 43 different variants the world-over, particularly, Africa and the Middle East, where these products are in demand.

A prodigy, who started young, Dr. Anil Kumar's incredible accomplishment in the corporate world is acknowledged by several accolades including the recognition by National Education and Human Resource Development Organization, which awarded him the Rashtriya Udyog Ratha Award in 2011. Recently, he was also honoured with the Eminent Personality of the Year Award at the Global Achievement Business / Education / Healthcare Awards 2022. These awards have furthered inspired Dr Kumar to move forward to cover new bastions with his focused vision and an insatiable drive to explore and venture into new global markets. His diligent and aggressive approach to grow as the world's leading name in business, has a higher purpose - love for his country. Through his businesses, Dr Kumar aims to earn substantial foreign currency for India apart from creating employment opportunities for the youth. In the current fiscal, Ankita Group of Companies is set to achieve a whopping \$100 million turnover, which will catapult the company to greater heights.

An unassuming man, Dr Kumar, understands the aspirations of the common man and looks for opportunities to make a positive impact on society. To accomplish his social responsibilities and commitment, the kind entrepreneur started an NGO called the Maheshwar Laxmi Memorial Foundation. The Foundation is dedicated to empower women through education and skill training. Another cause that is close to his heart is the welfare of war widows, disabled and retired defence personnel, and their dependents. He uses his resources and contacts for helping them with resettlement and providing access to government schemes. His philanthropic efforts during the Covid pandemic was praise worthy when he financially supported many people during the lockdown. Dr Anil Kumar is deftly steering the company through dynamic times while staying firmly rooted to reality with compassion for society.
